

What if we built a beautiful recording studio in Tuscany, Italy... then added modern ensuite accommodation, full catering and a guarantee to work with likeminded, talented professional writers...do you think anyone would come..?

The brainchild of multi award winning professional song writer Janie Price, strictly by invite only, 10-12 professional writers are welcomed twice yearly to experience Camp Triboli.

Nestled in the Chianti Hills but only a 25 minute drive from Florence International Airport, writing guests experience spending 5 days in a 100 hectare private estate complete with it's own working organic farm, spa, pool and gym. Full catering provided to everyone's personal needs by local trained chefs, we also provide ensuite accommodation and 4 professionally set up writing/ recording rooms.

The main studio and control room, as well as home to two writing rooms, are the venue for evening listen back sessions.

A typical week at Camp Triboli looks like this:

DAY 1 Writers arrive – settle in to accommodation, buffet dinner.

DAY 2-4

8.00-9.30am Buffet Breakfast

9.30am Morning briefing, groups decided.

10am Writing starts

12.30-2pm Buffet lunch available

4pm Tea and biscuits available in the “casina”

7.30-9.30pm Buffet dinner available

9.30pm Daily listen back/song share in the main studio

10.30pm Free time (pool tournaments may occur..)

Day 5 Writers depart (flexible buffet breakfast/brunch provided)

We ask for a contribution towards food and airport transfers if needed. Otherwise the camp is strictly non profit. Our payment is knowing we have helped in some way to provide a place for fellow artists to create, network and keep the magic that is song writing.. alive.

The main studio live room has a selection of vintage synths and a Yamaha c7 grand piano

And a full selection of acoustic and electric guitars and bass.

There's a few quirky additions, auto harps and banjoleles for the brave...And something for the drummers of course...

The control room has an original fully reconditioned Harrison Console, once owned by legendary producer Mike Hedges. It's also set up for full dolby atmos mixing (ATC speakers).

One of the other writing/recording spaces let's you feel fully immersed in the nature..our very special writing greenhouse...(there's aircon so no sweating it out to write a hit..)

But of course the most important part of any writing camp is the people... here's a few of our past participants...😊
